## Outpatients (Series 1)

8 x 60'

### EPISODIC BREAKDOWN

#### 1. Episode 001

A globe-trotting businessman from the UK is desperate for a confidence boost given his progressive balding. Dr. Cathy's innovative hair transplant technique may be just the answer he needs. Meanwhile an American TV personality's non-stop career has left her once fitness-model-physique on the back burner. New and innovative techniques in bio-hacking and fat cell burning promises to give her a new lease on life. Dr. Cathy then attempts a miracle treatment on a 17-year-old girl who survived a horrific lion attack as a child.

#### 2. Episode 002

A boisterous young professional developed an obsession with his receding hairline in his early twenties, and is left with the scars from two botched hair transplants. Dr. Cathy can save the day with a new and safe hair transplant technique. Meanwhile the mother of a 5-year-old burns survivor is counting on Dr. Cathy to intervene in her son's complexion before he develops serious self-esteem problems. Finally Dr. Cathy investigates the world of skin whitening with an outpatient who is one of the trend's proud flagbearers.

#### 3. Episode 003

A prolific boxing champion is preparing for one of the biggest fights of his career in New York. A huge boxing fan herself, Dr. Cathy agrees to treat his hairline for global television if he gets her back into the boxing ring! Meanwhile a middle-aged businessman is hoping Dr. Cathy will grant him his eccentric request for more... chest hair. Then Dr. Cathy turns to a severe case of a woman who has survived a horrendous acid-attack by her ex-boyfriend.

#### 4. Episode 004

A terrible condition of paralysis called Motor Neuron Disease is seen by many as a death sentence. But like many medical professionals Dr. Cathy believes in new and innovative treatments that can slow down its progression in diagnosed patients. Two outpatients share their inspirational journeys combating the disease. But before the day's over Dr. Cathy also needs to check on her niece who wants to return to the stage after a ballet injury and a woman who needs some serious facial pampering after getting fired from her job!

## **5. Episode 005**

Dr. Cathy meets a boy who was severely deformed in a petrol bomb attack as a baby. Under the wing of his teacher and with Dr. Cathy's expertise, there may be hope to improve his complexion and regrow his hair. Then more hair restoration is needed in a young professional who is tired of looking like a ghost because she has no eyebrows! Meanwhile Dr. Cathy is concerned about her young daughter's reading progress and immediate brain scans are done to test for possible irregularities.

## **6. Episode 006**

A globetrotting TV producer's wedding is months away and despite his progressively balding hairline, he dreams of a full head of hair for the special occasion. But has he left it too late for Dr. Cathy to work her magic? Meanwhile a 90-year-old outpatient's leg infection needs urgent attention with the aid of PRP and liposuction. Finally the parents of a special-needs child are excited to travel to India for innovative stem cell therapy upon Dr. Cathy's recommendation.

## **7. Episode 007**

Dr. Cathy's outpatient is a well-built man preparing for a fitness modeling competition. He is concerned that no amount of core training and calorie-watching will eradicate his stomach fat, and hopes that this doctor can give him a quick and easy solution! Meanwhile a girl who has survived a cancerous tumour in her uterus the size of a soccer ball, is keen to continue her physical and emotional healing through hair treatment to reverse the effects of chemotherapy. Dr. Cathy also tends to a little girl whose facial birthmark has just been surgically removed and needs to be replaced by a new eyebrow.
